Following such free time, a charge of \$125.00 [C] for each fifteen (15) minutes, or fraction thereof, for which the locomotive is delayed will be assessed in addition to all other rates and charges. Charges will be assessed in accordance with Paragraph (B) when delays encountered during a locomotive trick or shift, aggregate more than fifteen (15) minutes.</p> <p>B. If, after a reasonable period of delay, the obstruction or condition preventing completion of service has not been removed or eliminated, the carrier may, at its option, withdraw its locomotive and place the car or cars on a hold or other available track or tracks within or without the customer's facility. Charges for the delay encountered shall be computed in accordance with Paragraph (A).
